## AMERICAN WHISKEY

Bourbon whiskey is a type of American whiskey, a barrel-aged distilled spirit made primarily from corn. The use of the term "bourbon" for the whiskey has been traced to the 1820's and the term began to be used consistently in Kentucky in the 1870's. It is strongly associated with the American South and with Kentucky in particular. To be legally sold as a bourbon, the whiskey mash bill requires a minimum of 51% corn, with the remainder being rye, wheat, malted barley, singly or in any combination. The history of bourbon goes back prior to prohibition, however it is a spirit that will forever age and grow over time. Bourbon's general flavor profile can be characterized as having big vanilla, oak, and caramel notes. It is perfect to enjoy straight up or on the rocks.

Here at Ocean Reef Club, we take our bourbon seriously as you can see by our offerings and the numerous "barrel selections" done by our own Food & Beverage team. Please ask your server or bartender what special Ocean Reef Club bourbons we have at this time and sit back, relax, sip and enjoy.
